Article Guidance

Article Text

This Billing and Coding Article provides billing and coding guidance for Local Coverage Determination (LCD) L35138, Routine Foot Care. Please refer to the LCD for reasonable and necessary requirements.

Coverage Guidance

Notice: It is not appropriate to bill Medicare for services that are not covered (as described by the entire LCD) as if they are covered. When billing for non-covered services, use the appropriate modifier.

It is not appropriate to report procedure codes 11305-11308 for the removal of corns and calluses of the feet.

Removal of these lesions is considered to be routine foot care and must be reported with procedure codes 11055-11057, paring or cutting of benign hyperkeratotic lesion (e.g., corn or callus). Services must be reported using the procedure code that most accurately describes the procedure performed.

When reporting routine foot care services that needs to meet one of the exclusions, one of the following applicable Q modifiers identifying the class findings must be included on the claim.

- Q7 – 1 Class A findings
- Q8 – 2 Class B findings
- Q9 – 1 Class B and 2 Class C findings

For all claims for foot-care services, report a foot/toe location modifier (when appropriate). The following are valid HCPCS modifiers:

- Left foot - LT
- First toe, left foot - TA
- Second toe, left foot - T1
- Third toe, left foot - T2
- Fourth toe, left foot - T3
- Fifth toe, left foot - T4
- Right foot - RT
- First toe, right foot - T5
- Second toe, right foot - T6
- Third toe, right foot - T7
- Fourth toe, right foot - T8
- Fifth toe, right foot - T9

If a significant separately identified evaluation and management service is provided on the same day as routine foot care, the -25 modifier should be appended.

Report only one of CPT codes 11055-11057 for each date of service. Total the number of keratotic lesions debrided and select the most appropriate CPT code. Example: if one lesion is debrided on the right foot and two lesions are debrided on the left foot, code 11056 (two to four lesions) would be the most appropriate CPT code.

When reporting one of the ICD-10-CM codes that fall under the "active care requirement", the date that the beneficiary was last seen by the M.D., D.O., or qualified NPP, responsible for treating the underlying condition must be reported in line 19 of the CMS-1500 claim form or the electronic equivalent.

Bill Type Codes

Contractors may specify Bill Types to help providers identify those Bill Types typically used to report this service. Absence of a Bill Type does not guarantee that the article does not apply to that Bill Type. Complete absence of all Bill Types indicates that coverage is not influenced by Bill Type and the article should be assumed to apply equally to all claims.

Revenue Codes

Contractors may specify Revenue Codes to help providers identify those Revenue Codes typically used to report this service. In most instances Revenue Codes are purely advisory. Unless specified in the article, services reported under other Revenue Codes are equally subject to this coverage determination. Complete absence of all Revenue Codes indicates that coverage is not influenced by Revenue Code and the article should be assumed to apply equally to all Revenue Codes.

Note: The contractor has identified the Bill Type and Revenue Codes applicable for use with the CPT/HCPCS codes included in this article. Providers are reminded that not all CPT/HCPCS codes listed can be billed with all Bill Type and/or Revenue Codes listed. CPT/HCPCS codes are required to be billed with specific Bill Type and Revenue Codes. Providers are encouraged to refer to the CMS Internet-Only Manual (IOM) Publication 100-04, *Medicare Claims Processing Manual*, for further guidance.
